

FIXIQ PRO

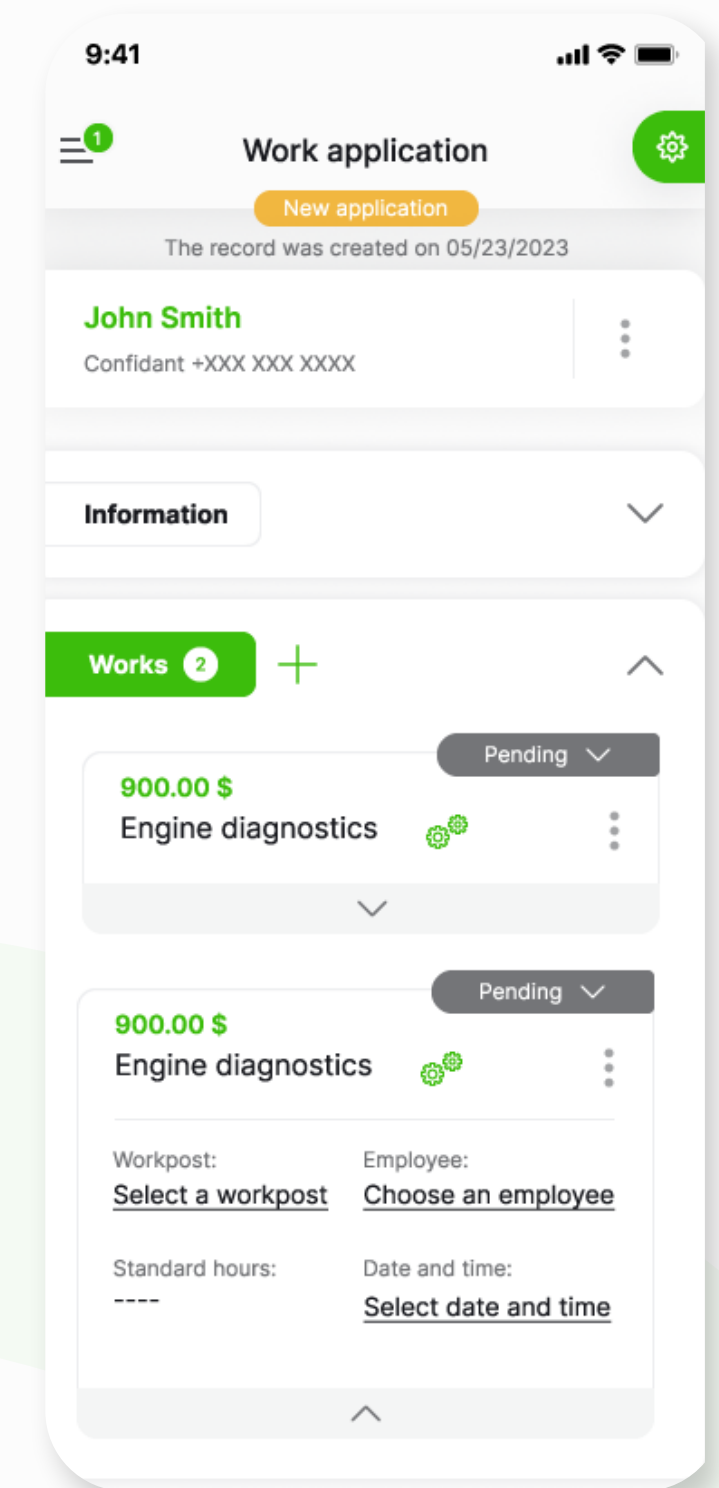

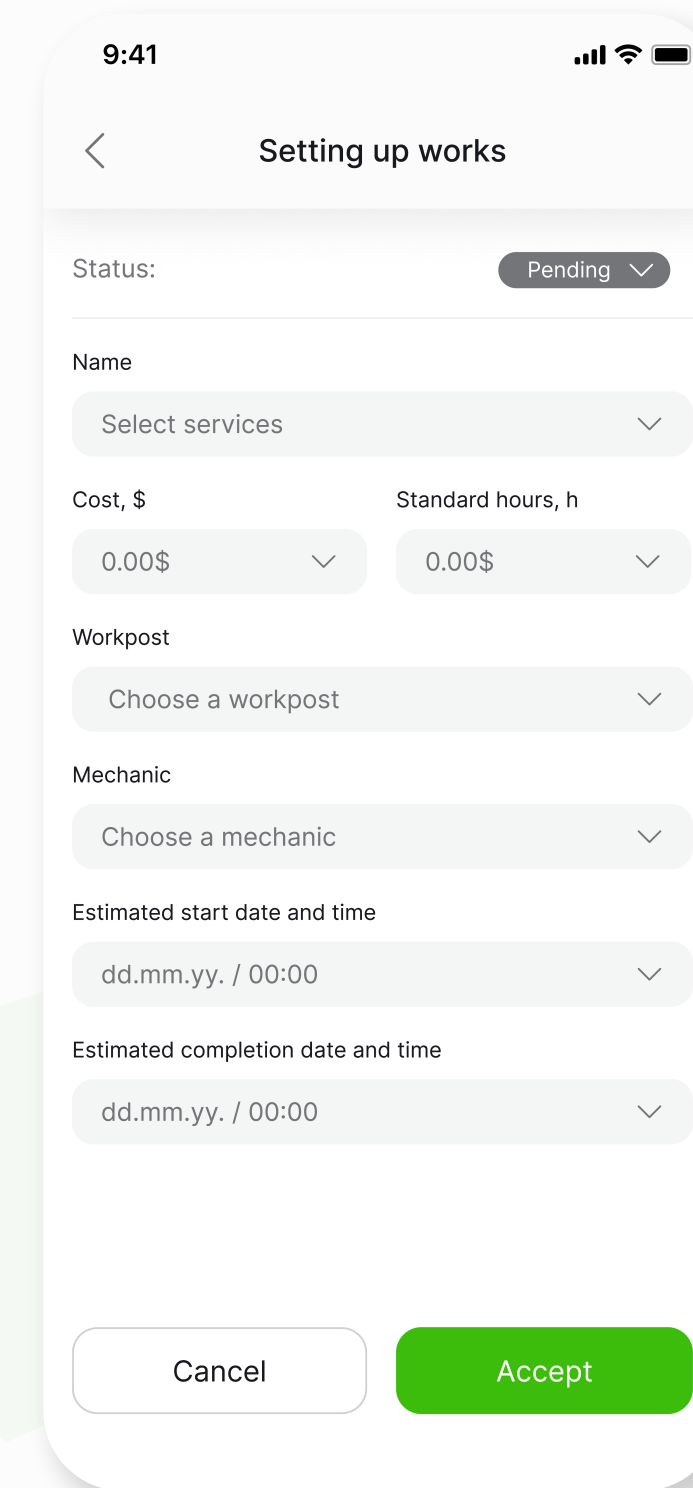

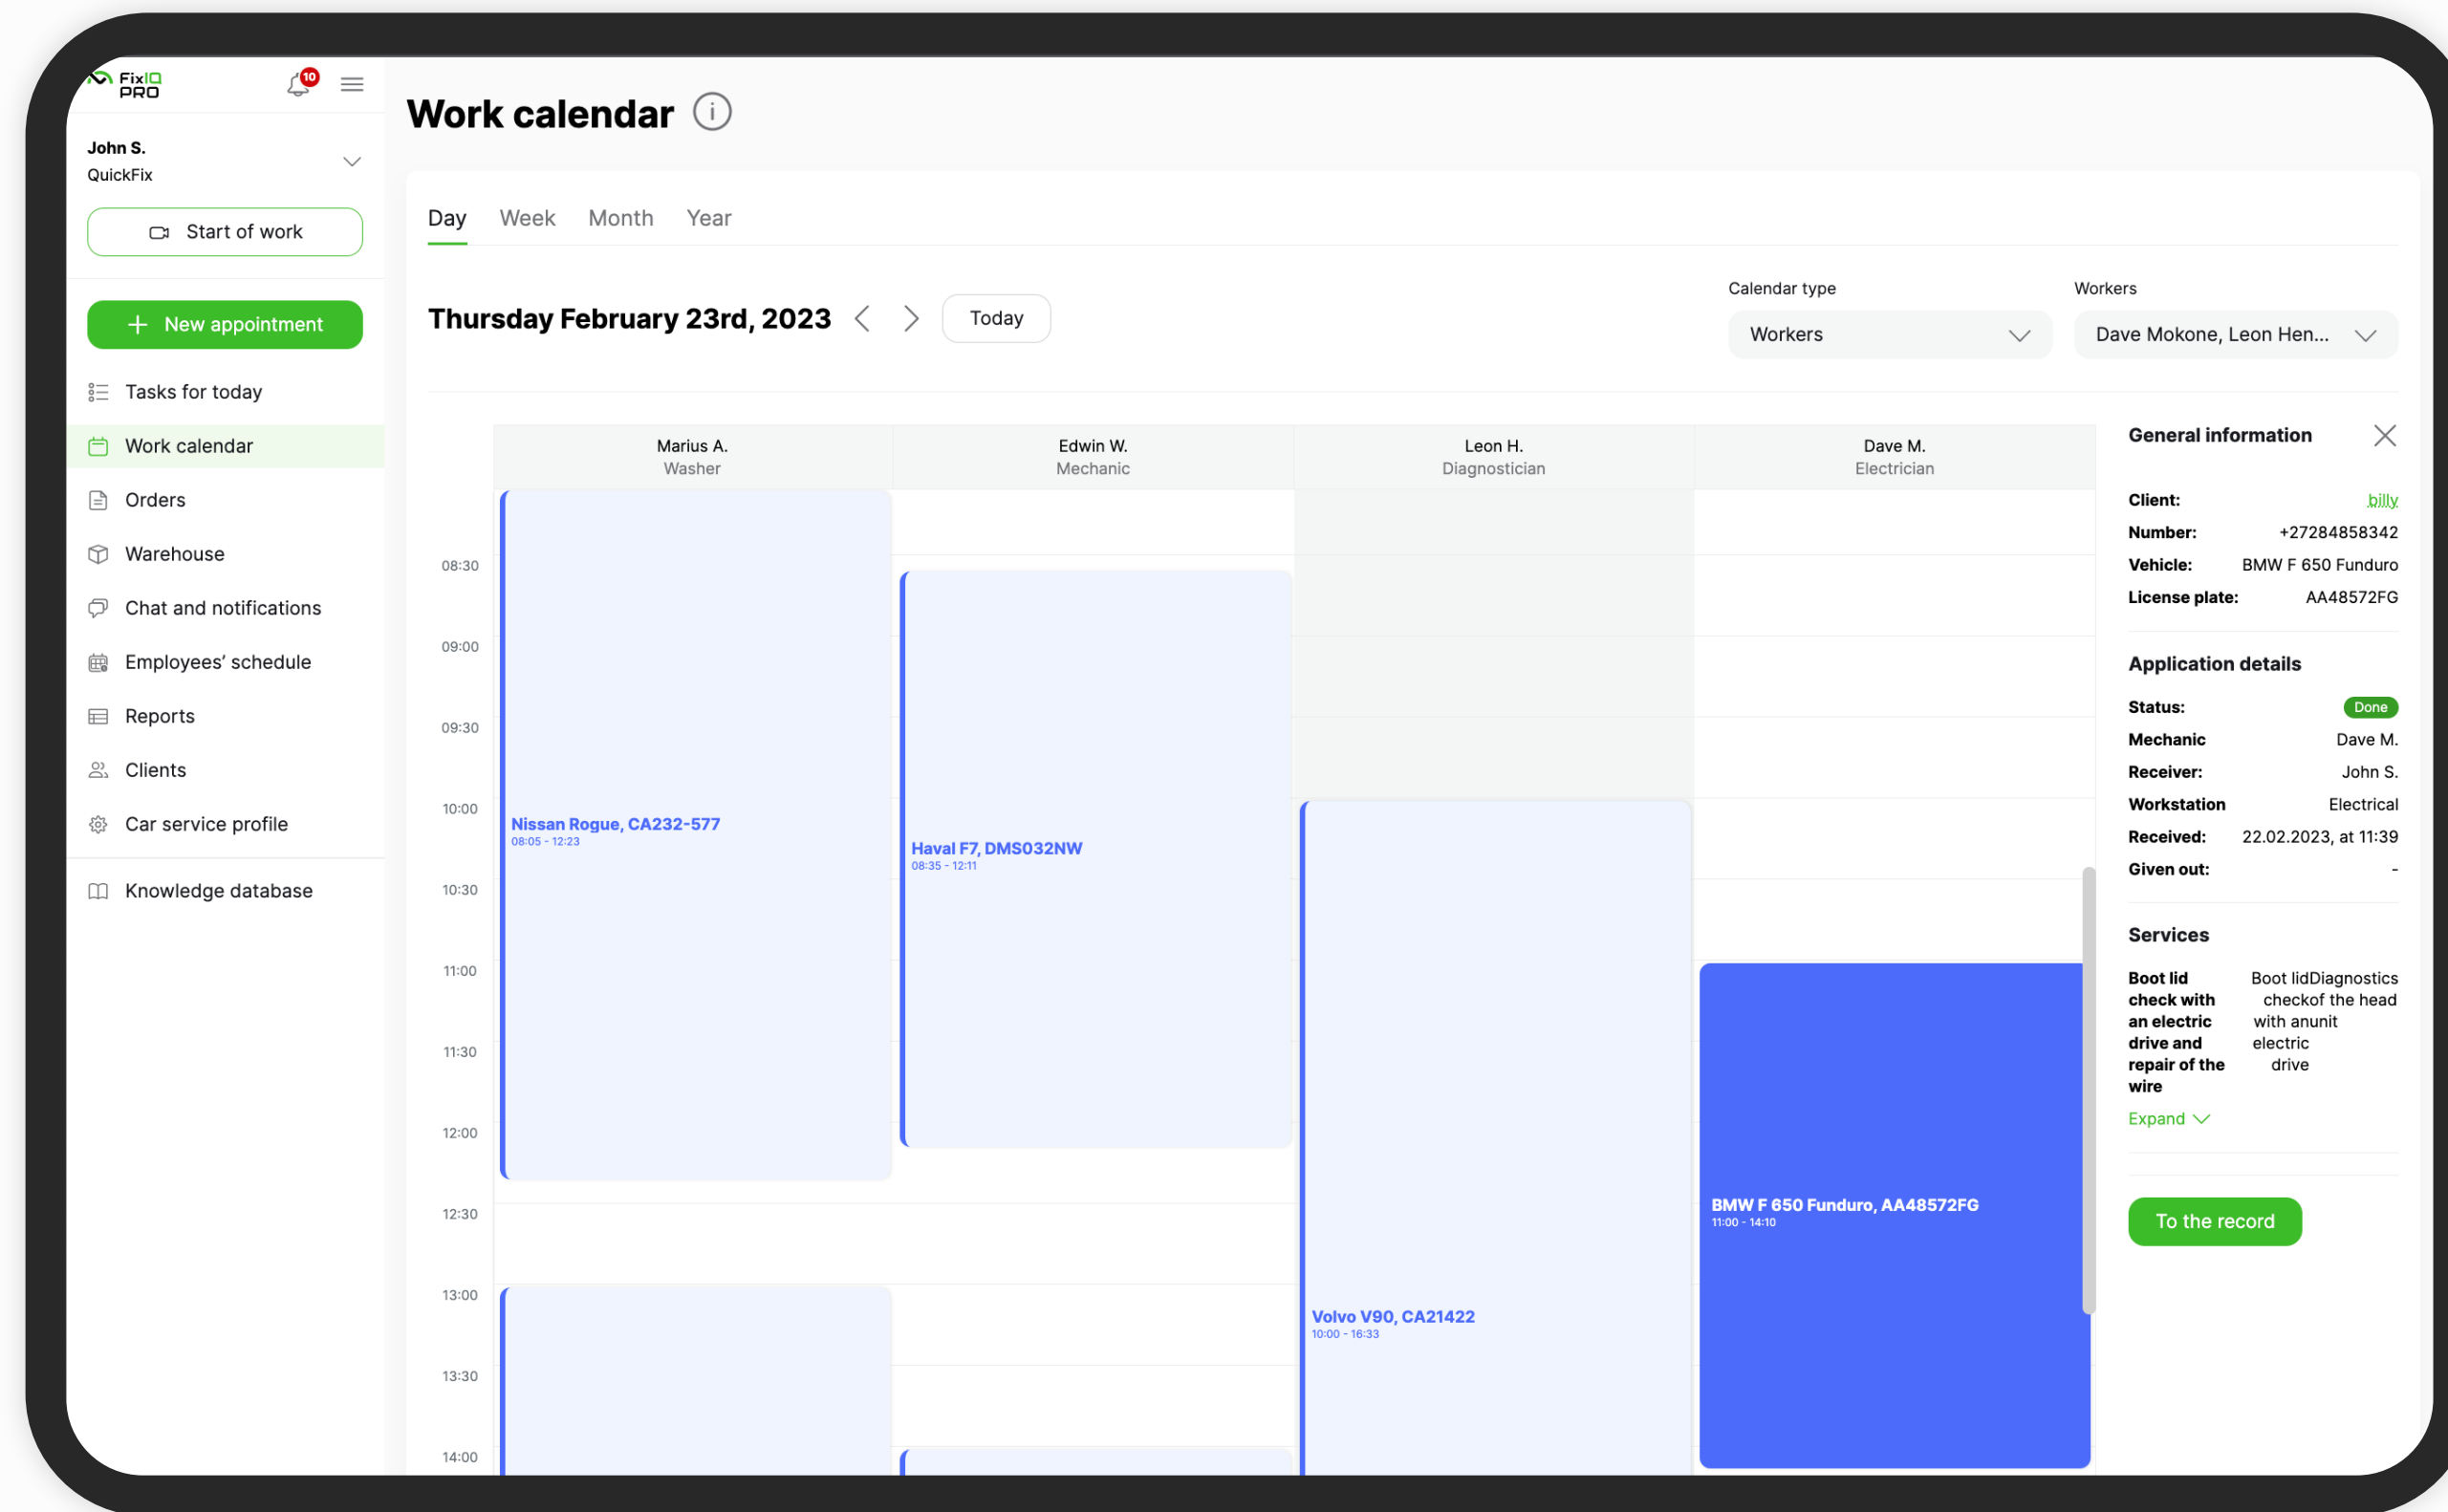

No one likes presentations because no one enjoys being sold to

That's why let's just show you **how you can earn more** and **simplify your life with FixIQ**

First, what is FixIQ?

FixIQ is an all-in-one tool that streamlines customer service processes in your company. It transforms your business into the digital age, with features like CRM, customer database, scheduling, chats, and document generation.

Accessible from any device, it enables you to manage tasks on the go and stay in control.

Business Owner

Now my business is under my complete control! I can accomplish tasks faster and more efficiently, even when I'm not at the workplace.

Contact me and tell me what you liked or would you like to improve
Elie +12014972216 Get started now for free! **Fixiq.pro**

Assigned a new task to your tech?

Your specialist will quickly see it using a separate mobile application (Android or iOS) designed specifically for mechanics. Parts, work schedule, notes — everything is available in just one click, without accessing financial information, general reports, customer database, or other sensitive data.

Improve your service, increase prices, and earn more

With FixIQ, there will be fewer customer questions. All information, including documents, service history, and chat, is readily available on their smartphones.

Customer
Why should I call when I can find most of the answers in the app myself. The entire history of my cars is here? It's magic...

Manager
We can set the same prices as big companies, because our service is definitely not worse!

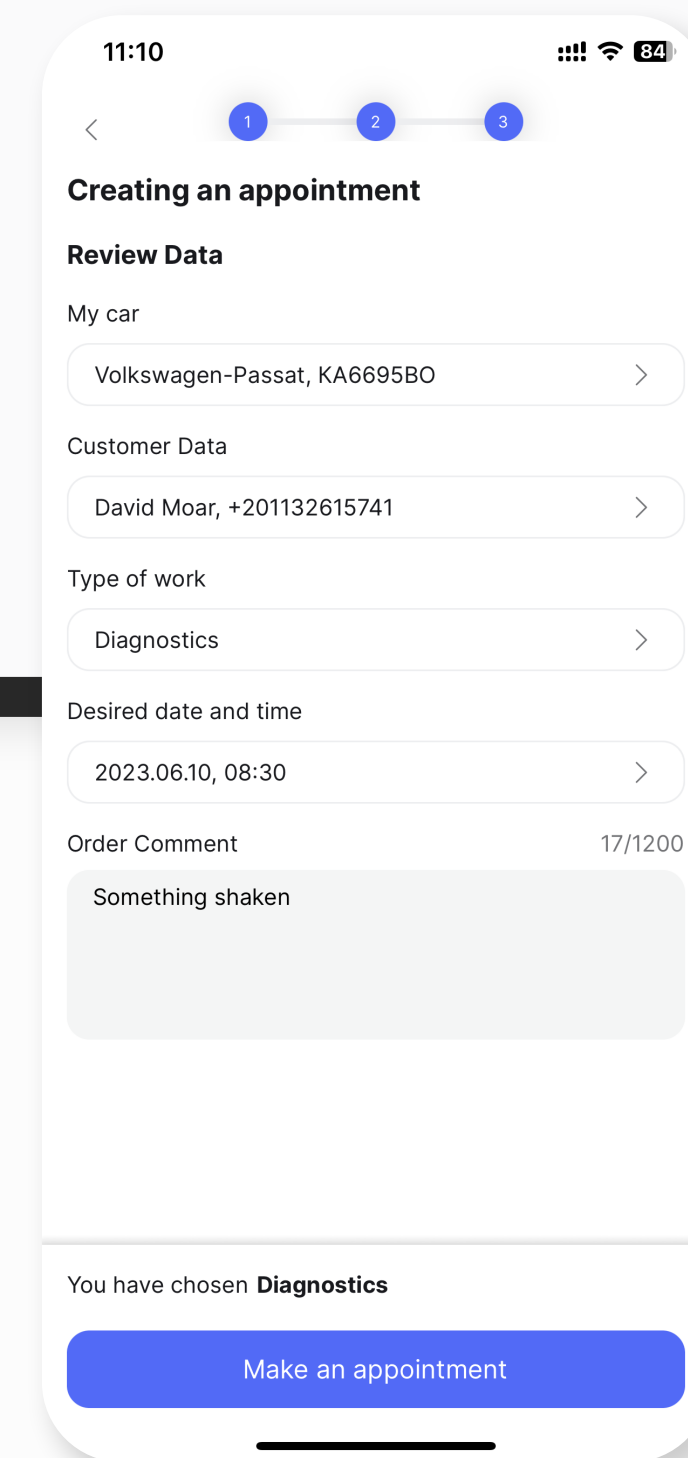

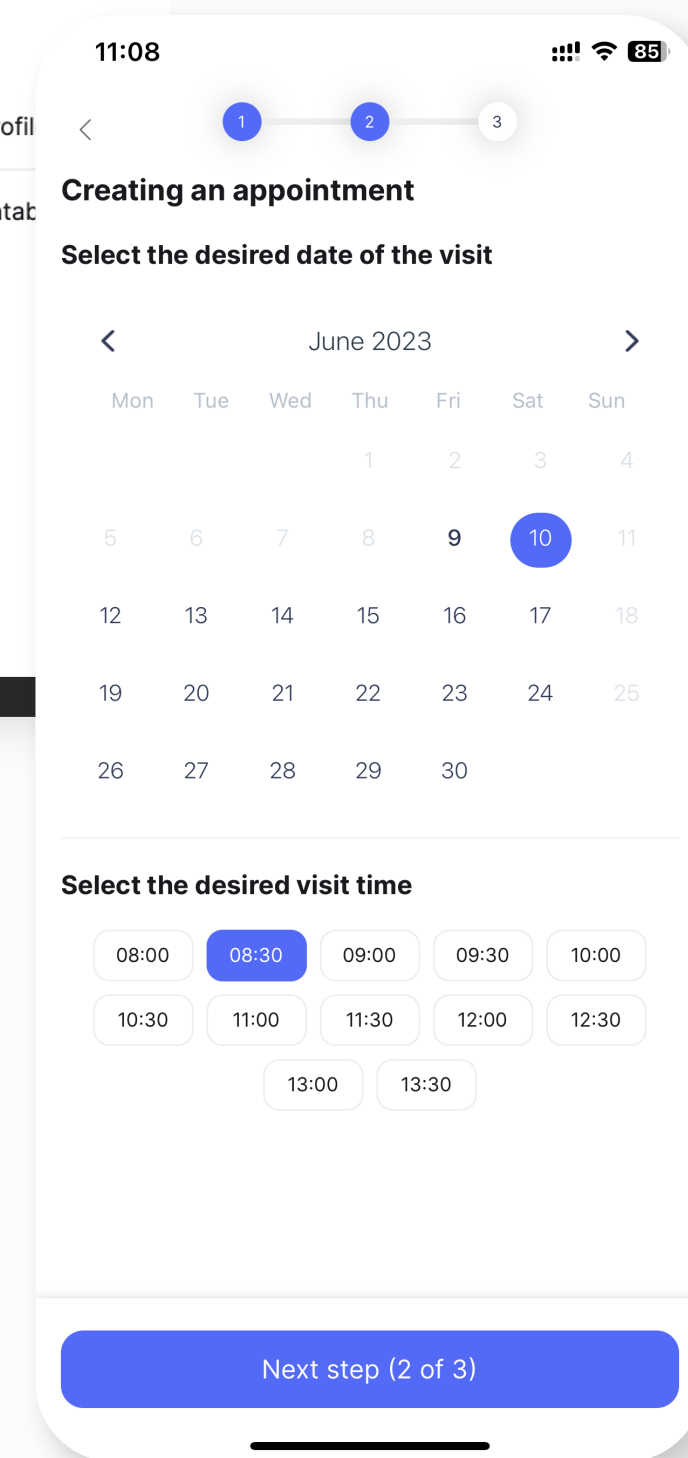

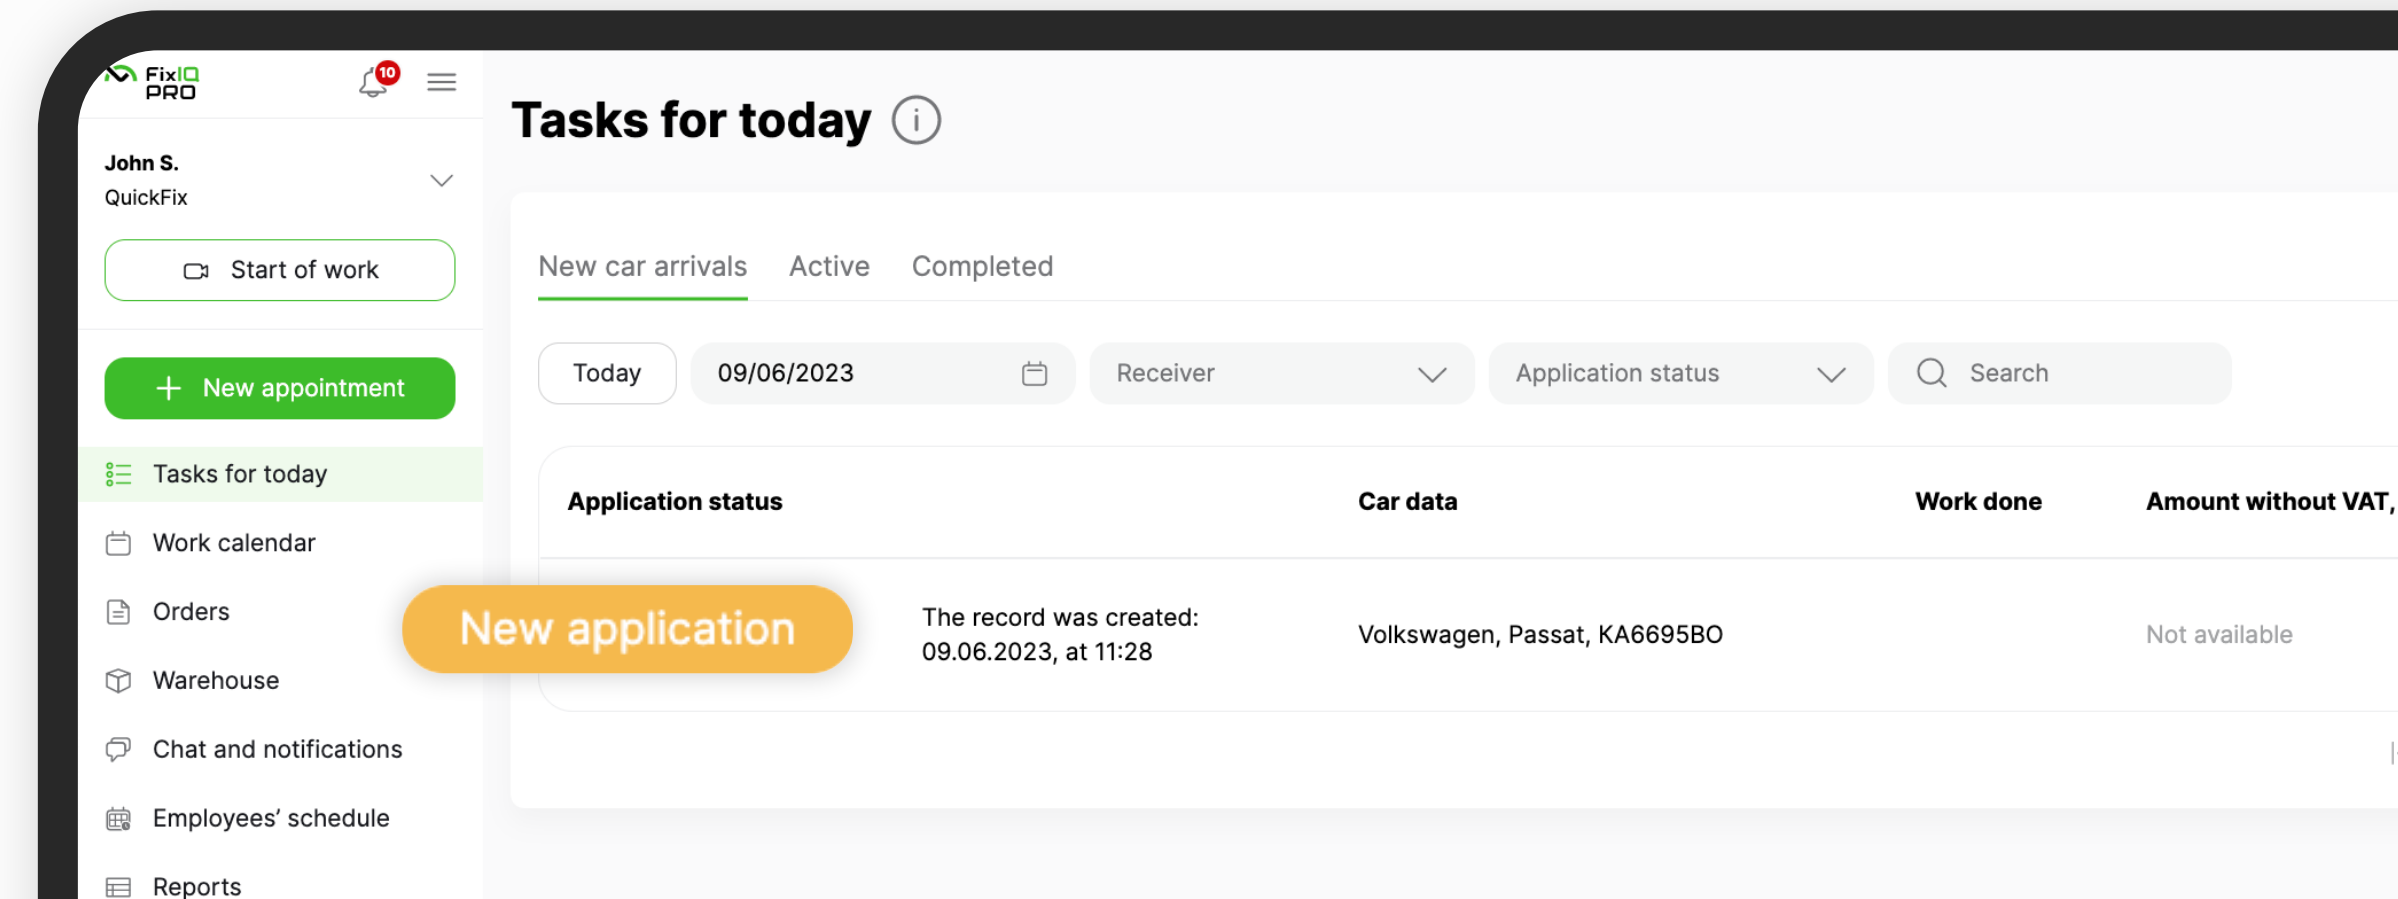

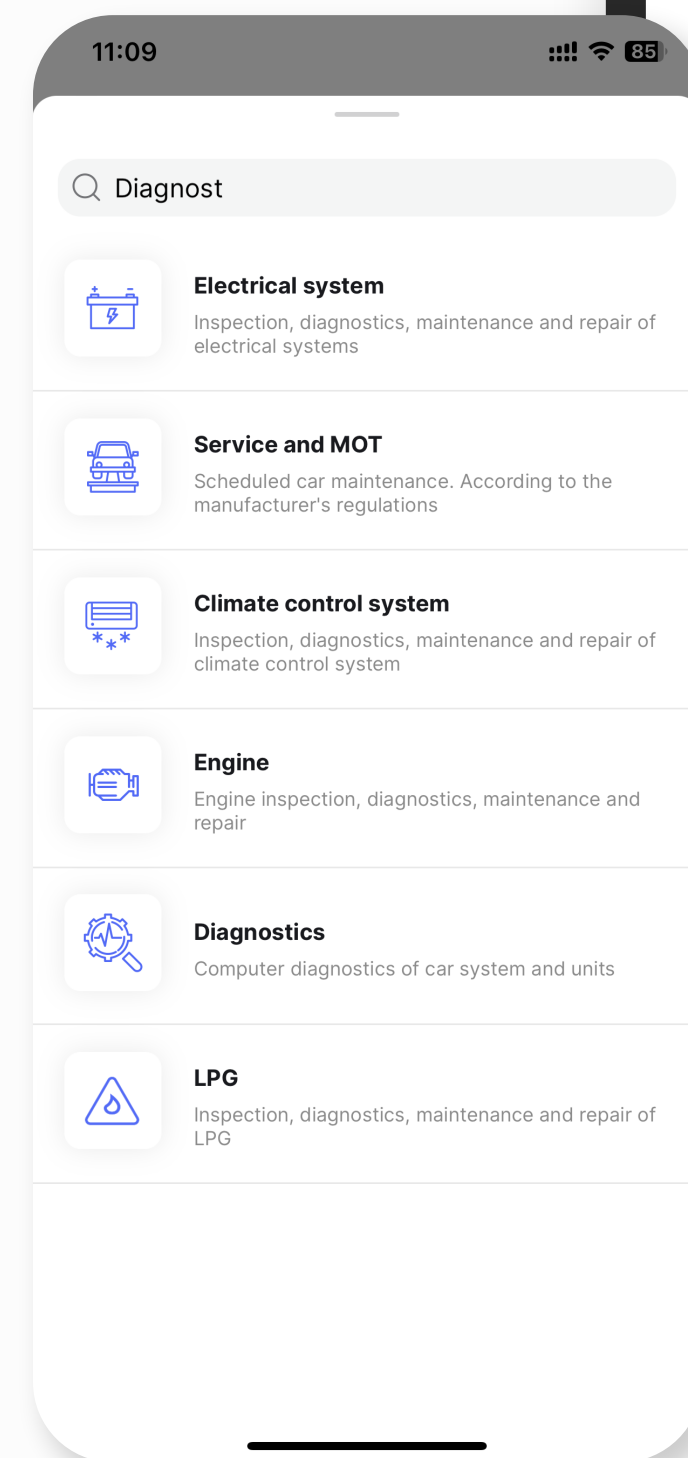

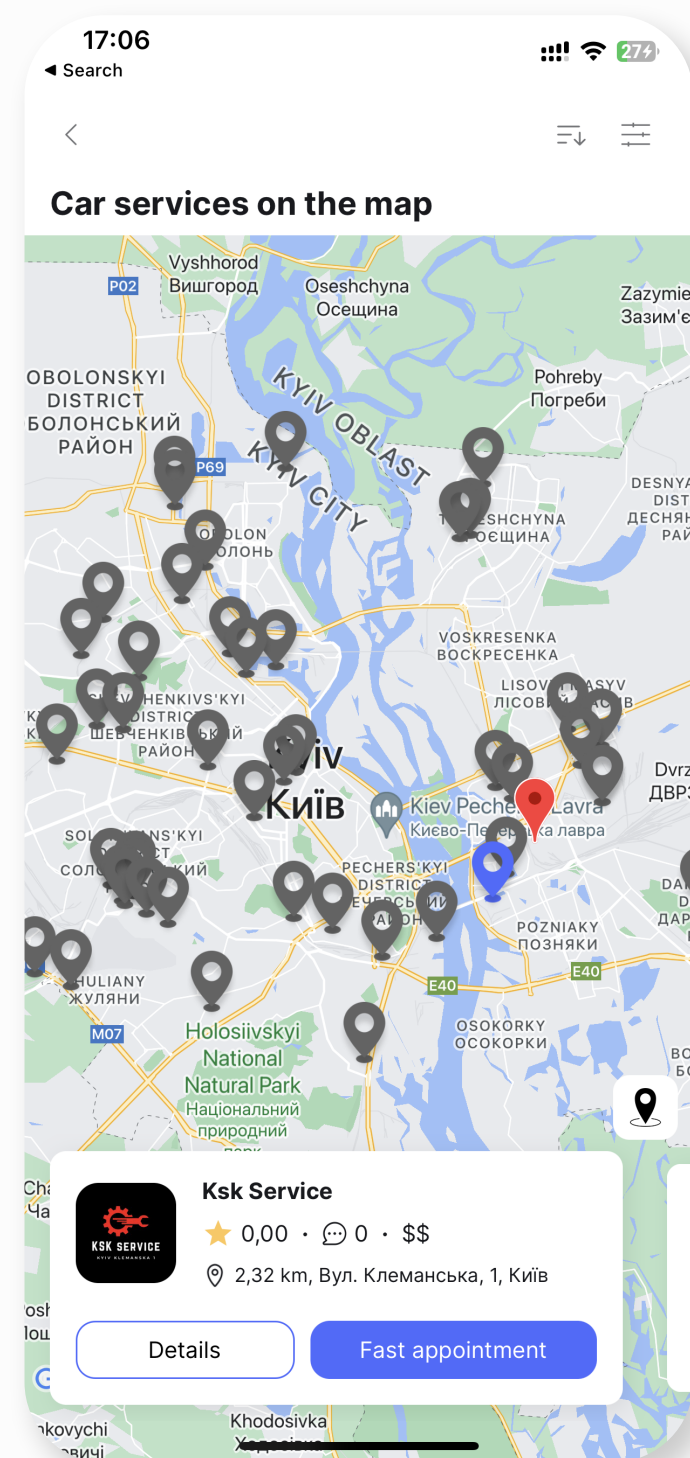

Service Manager
Bill and work order? Already sending...

Contact me and tell me what you liked or would you like to improve
 **Elie +12014972216** Get started now for free! **Fixiq.pro**

Moreover, new customers will be able to find you through the car shop search in the FixIQ app

Have you been struggling with a lack of employee workload? List your business in the marketplace, build your brand, and attract more new customers.

Customer
I need help urgently. I'm willing to pay even more if someone can assist me right now!

Do the same, but get more in return

With FixIQ, you spend the same amount of time entering data, but the system takes care of analysis, documents, and reports for you!

The Service Manager interface includes a notification list on the left with messages like "Customer reminder Abram John" and "Works are delayed for 40 minutes!". The main area shows a customer profile for "Abram John" with options to "Create an application", "Reminder", "Chat", and "Call". A "Reminder" modal is open, allowing the user to set a date (09/06/2023) and time (12:50) for a reminder to "Remind the customer about the need for maintenance". Below this, a table lists orders with columns for application status, car details, service type, date, cost, and payment status.

The Reports dashboard displays key performance indicators for the period 20/02/2023 - 24/02/2023. Metrics include 36 appointments, 27 car arrivals, an average check of 137\$, and a total turnover of 3,415\$. A bar chart compares services and goods revenue over the five-day period.

Metric	Value
Number of appointments	36
Number of car arrivals	27
Average check, excluding VAT	137\$
Money turnover, including VAT	3 415\$
Margin Goods, excluding VAT	39\$
Cash inflow, including VAT	3 415\$
FixIQ records	0
Previous appointments	7

This Reports dashboard shows metrics for the same period, including 36 appointments, 27 car arrivals, and a total turnover of 3,415\$. A bar chart compares new and regular clients. Below the reports, an "Appointments" table lists individual service events with client and vehicle details.

Date and time	Client	Client type	Vehicle data
20 February 2023, 08:30	billy	Regular client	BMW F 650 Funduro AA48572FG
February 2023, 08:30	Bob	Regular client	Ford E-350 CDC791MP
20 February 2023, 09:00	samuel	Regular client	Hyundai Sonata AND020

Service Manager
Finally, I have 2-5 minutes for coffee or other important tasks!

Customer
You guys are awesome and fast! Your service is way ahead of others!

Manager

There should be 4 filters here, you need to look at the history of movements and carry out an inventORIZATION.

Perform diagnostics easier and faster

Create templates for diagnostic cards for any task. Fill them out in the app, online from your computer, or print them out. Plan the client's next visits based on the conducted diagnostics.

Mechanic
It's convenient, I don't need to go and retell everything to the service manager. I just record everything on my phone, add photos, and it's done.

The screenshot shows the mobile app interface for a mechanic. The main screen displays a 'Diagnostic cards' section for a 'Multi-Point Inspection' performed on 09.06.2023. Below this, there are four status options: 'Item not checked', 'No problems found' (selected), 'Repair/replacement recommended', and 'Replacement/repair needed'. A checklist of 10 checkpoints is visible, with the first one being 'Oil change and filter'. The status for this checkpoint is 'No problems found'. Below the checklist, there is a 'Recommendations for checking' section with a text input field containing 'Need change soon'. At the bottom, there are fields for 'Recommended completion date' (30/06/2023), 'Yearly mileage for work execution' (160000), and 'Units of measurement' (km). The bottom of the screen shows a summary: 'Total time of work: 2 h. 24 min.', 'Cost of services: 96.00 \$', and 'Total cost: 96.00 \$'. There are three buttons: 'Cancel', 'Make a prepayment', and 'Accept car'.

The 'Editing a diagnostic card' modal window shows the following details:

- Diagnostic card name: 22/100
- Belonging to the transport type: Light cars
- Tags: (empty)
- Status: Active (selected), Inactive
- Checkpoint table:

Nº	Status	Checkpoint name	Recommendations for review	
Nº1	●	Oil change and filter	Need change	✎ 🗑
Nº2	●	Fuel Filter		✎ 🗑
Nº3	●	Engine Air Filter		✎ 🗑
Nº4	●	Engine Coolant		✎ 🗑
Nº5	●	Transmission Fluid \$/or Filter		✎ 🗑
Nº6	●	Cabin Air Filter		✎ 🗑
Nº7	●	Spark Plugs		✎ 🗑

We believe in people, our country, and supporting entrepreneurs!

We believe that if we help you grow, together we can make the automotive service industry better. Because if things go well for you, they'll go well for us too.

Do you not need a program right now? Let us help you in a different way.

Every week, we create materials with the goal of helping auto service businesses grow and achieve their goals.

We assist in the following areas of business tasks:

- ✓ Marketing and advertising
- ✓ Sales of auto repair services
- ✓ Revenue-boosting services
- ✓ Effective business management
